Williams Evojet E70

In 2019, the EvoJet pushed the boundaries of what's expected from a superyacht tender, but this wasn't the end... we were just getting started.

We embarked on a journey of discovery, and a mission to reduce emissions. A demonstration of innovation. A bolt from the blue.

Our most advanced and luxurious tender, the EvoJet, has been electrified. Initially a technology demonstrator designed to push the boundaries of what's possible, without compromising on the level of performance you'd expect from a Williams tender.

Technical parameters

Shipyard	Williams Jet Tenders
Range	Evojet
Lenght	7,1 m
Beam	2,65 m
Displacement	2200 kg
Performance	65 km/h
