Predator 75

The new Sunseeker Predator 75 features striking exterior details and a contemporary interior finish, perfectly combined to deliver an exciting yacht reaching speeds of up to 40 knots with twin MAN V12-1550 or 1900 engines.

Aesthetic styling is prevalent in every detail. The yacht profile turns heads with stainless steel air intake cowlings and exterior handrails, contributing to the high-quality finish. There is an enhanced material selection, with new exterior upholstery and moulding options. Adventurous buyers will be captivated by a choice of four new grey hull colours. Overall, the exterior is aggressive and imposing, with a new, angular hull and superstructure glazing design.
