BYCHL YACHT CENTRUM

Marex 390

The Marex 390 represents a new generation of family cruisers, building on many years of experience and feedback from Marex boat owners. The 390’s design is conceived to strike a balance between the open outdoor space and the interior. Thanks to this design, the boat is well-suited to long stays at sea.

The stern is dominated by a cockpit with wraparound seating that accommodates 10 people. Sliding doors and an electrically operated window allow the cockpit to be connected to the light-filled saloon to form a single open space. This leads into a fully equipped galley with a large sink, a double fridge and the option of a gas or induction hob. Roof-mounted solar panels keep the fridge and lighting running even when moored outside the marina.

At the bow, there are also removable mattresses with adjustable backrests. The side door by the helm is particularly practical, as it speeds up access to the deck during manoeuvring or mooring.

The interior itself offers spacious and light-filled cabins with opening windows and ample storage space. One of the cabins features a sofa that can be used as an extra bed.

The hull is specially designed to ensure high stability, a smooth ride and maximum fuel efficiency. The Marex 390 is an excellent choice for those who love comfortable, stylish and safe travel at sea.

755 000 EUR exl. DPH
